April 1, 2011

## **New ethanol blender pump opens in York**

A new ethanol blender pump is now available in the York area at Aurora Cooperative, 1320 L Road.

The York E85 / blender pump is the 61<sup>st</sup> in Nebraska to offer the renewable fuel. The location will have regular gasoline, ethanol fuels, and diesel available 24 hours a day. Find a current list of Nebraska E85 pumps in Nebraska at the Nebraska Ethanol Board website at [www.ne-ethanol.org](http://www.ne-ethanol.org) or check the Nebraska Corn Board website at [www.nebraskacorn.org](http://www.nebraskacorn.org).

Over 96,000 Nebraska motorists currently own Flexible Fuel Vehicles, which can run on any blend of ethanol and gasoline, including E85. Drivers can confirm if their car is a FFV by checking their owner's manual or visiting the Nebraska Ethanol Board website at [www.ne-ethanol.org/e85](http://www.ne-ethanol.org/e85).

"E85 is cleaner than gas, it's produced here in Nebraska, and more and more cars can use it every year," said Todd Sneller, Nebraska Ethanol Board Administrator. "When FFV drivers fill up on E85, they're strengthening Nebraska's economy, making our country more energy independent and going easier on the environment," Sneller said.

"The addition of this new flex fuel dispenser will ensure that consumers will have more choices at the pump to fuel up their flex fuel vehicle said Kim Clark Ag Program Manager with the Nebraska Corn Board" "Consumers will be able to fill up based on price, performance and availability."

Sign up for the Nebraska Ethanol Board's FFV club to be alerted of new E85 locations and other announcements. Go to [www.ne-ethanol.org/ffv](http://www.ne-ethanol.org/ffv) to sign up now. Registration is free.

*Established in 1971, the Nebraska Ethanol Board assists ethanol producers with programs and strategies for marketing ethanol and related co-products. The Board supports organizations and policies that advocate the increased use of ethanol fuels and administers public information, education, and ethanol-focused research projects. The Board also assists companies and organizations in the development of ethanol production facilities in Nebraska. For more information, please visit [www.ne-ethanol.org](http://www.ne-ethanol.org).*

*The Nebraska Corn Board is a self-help program, funded and managed by Nebraska corn farmers. Producers invest in the program at a rate of ¼ of a cent per bushel of corn sold. Nebraska corn checkoff funds are invested in programs of market development, research and education.*
