## PRESS RELEASE

### For Immediate Release

December 27, 2011

### For More Information Contact:

Todd Sneller at (402) 471-2941

### **New ethanol blender pump open in Arcadia**

A new E85 pump offering the high-ethanol blend is available in the Arcadia area at Trotter Service, 135 E Bridge Street.

The Arcadia pump is one of more than 60 in Nebraska to offer higher ethanol blends. The location will have regular gasoline, E10 unleaded, and E85 available. Find a current list of Nebraska E85 pumps in Nebraska at the Nebraska Ethanol Board website at [www.ne-ethanol.org/e85](http://www.ne-ethanol.org/e85).

Over 100,000 Nebraska motorists currently own Flexible Fuel Vehicles, which can run on any blend of ethanol and gasoline, including E85. Drivers can confirm if their car is a FFV by checking their owner's manual or visiting the Nebraska Ethanol Board website at [www.ne-ethanol.org/ffv](http://www.ne-ethanol.org/ffv).

"E85 and other ethanol fuels burn cleaner than gasoline and the ethanol is produced here in Nebraska. As manufacturers produce more Flex Fuel Vehicles each year, there is an opportunity to expand the use of high level ethanol blends," said Todd Sneller, Nebraska Ethanol Board Administrator.

"When FFV drivers fill up on E85 and other ethanol blends, they're strengthening Nebraska's economy, making our country more energy independent and going easier on the environment," Sneller said.

Sign up for the Nebraska Ethanol Board's FFV club for updates of new E85 locations and other announcements. Go to [www.ne-ethanol.org/ffv](http://www.ne-ethanol.org/ffv) to sign up now.

Established in 1971, the Ethanol Board assists ethanol producers with programs and strategies for marketing ethanol and related co-products. The Board supports organizations and policies that advocate the increased use of ethanol fuels – and administers public information, education and ethanol research projects. The Board also assists companies and organizations in the development of ethanol production facilities in Nebraska. For more information, please visit [www.ne-ethanol.org](http://www.ne-ethanol.org).
