### New Guide for to E85 and Ethanol Blender Pumps available

The [Clean Fuels Foundation](#) announced the publication of a new document supporting current efforts to expand refueling infrastructure for high level ethanol blends.

*E85 and Blender Pumps: A Resource Guide to Ethanol Refueling Infrastructure* was developed in cooperation with the Nebraska Ethanol Board, the US Department of Agriculture, and the FlexFuel Vehicle Awareness Campaign. The guide was created to help fuel marketers and other interested parties learn more about options available to them to market ethanol blends.

The guide provides technical details regarding dispensers and vehicles as well as information covering such areas as financial assistance, construction, and permitting.

Copies of the Guide may be obtained by contacting the Clean Fuels Foundation at [cfdcinc@aol.com](mailto:cfdcinc@aol.com), from the [Nebraska Ethanol Board](#), or from the [FFV Awareness Website](#).

See past news releases from the Nebraska Ethanol Board on the ["News & Opinion" page](#).

---

Established in 1971, the Ethanol Board assists ethanol producers with programs and strategies for marketing ethanol and related co-products. The Board supports organizations and policies that advocate the increased use of ethanol fuels – and administers public information, education and ethanol research projects. The Board also assists companies and organizations in the development of ethanol production facilities in Nebraska. For more information, please visit [www.ne-ethanol.org](http://www.ne-ethanol.org).
